CRITICAL FLAGS -- IMMEDIATE FIDUCIARY ATTENTION REQUIRED

CRITICAL	**NO STOP-LOSS COVERAGE**	833 covered lives with ZERO stop-loss in any plan year 2020-2024. One catastrophic claim ($500K+) could threaten plan solvency. Industry standard for 200+ life groups requires minimum aggregate SL.

CRITICAL	**BROKER = ADMIN FEES -- ALL 8 PLAN-YEARS**	In every recorded plan year for both Medical (PN 501) and LTD (PN 503), broker commissions equal admin service fees to the exact dollar -- a Sec.408(b)(2) red flag consistent with bundled/undisclosed compensation.
HIGH	**LTD BROKER SPIKE +76% (2021 to 2022)**	LTD & Life broker fees jumped $46,052 to $81,817 (+$35,765) while headcount grew only 90 lives (+11.7%). Fee/member increased $59.71 to $95.03 with no carrier change and no plan enhancement documented.
HIGH	**MEDICAL BROKER SPIKE +548% (2021 to 2022)**	Medical & Dental broker fees surged $6,151 to $39,899 (+549%) with only 14 additional participants (+2.3%). Carrier remained National Guardian Life throughout. No plan change justifies this increase.
HIGH	**CARRIER SWITCH / ZERO FEE REDUCTION (2022 to 2023)**	Medical plan switched National Guardian Life to Metropolitan Life in 2023, yet broker fees remained flat ($39,899 to $37,249). Carrier changes are prime fee-reduction opportunities -- none was realized.
MODERATE	**PLAN RESTRUCTURE 2023-2024 -- BOR WINDOW OPEN**	Both legacy plans (PN 501, PN 503) show 0 participants at EOY 2023, replaced by new PN 504 in 2024. Plan restructures are premier BOR windows -- the incumbent broker is in a vulnerable re-negotiation cycle.

P90 Industry Bench	**IN Banking**	**varies**	**$302,724**	**$100-$300+**	**3x median**

FINDING: Horizon's LTD plan at $104.62/member (2022) sits above P75 for Indiana banking peers. The Medical plan at $59.41/member is below peer median -- a split pattern suggesting Medical commissions may be underreported, while LTD compensation is concentrated with LINA for 4+ consecutive years with no competitive re-pricing.

KINCAID ENGAGEMENT NARRATIVE -- OPENING SCRIPTS

COLD OPENER (Phone / Email)

Horizon Bancorp -- we pulled 5 years of your Form 5500 filings through our DOL Intelligence Engine. Your LTD broker fees jumped 77% between 2021 and 2022 with no carrier change and flat headcount. We have the documentation in front of us. Can we show you this in 10 minutes?

FIDUCIARY HOOK

As a plan fiduciary post-NBTB acquisition, your team is now carrying full liability for $127,000/year in broker commissions that exactly equal admin fees -- every single year on record. EBSA has been actively pursuing Sec.408(b)(2) patterns exactly like this. We can help you document and remediate.

STOP-LOSS OPENER

833 covered lives, zero stop-loss coverage in any plan year. One NICU stay, one transplant, one oncology case and the plan absorbs every dollar above claims expected. We can place aggregate and specific SL in 30 days. Want to see what that costs vs. what it protects?

Rx DEFENSE HOOK

Your pharmacy benefit spend is completely opaque in your current filings -- no PBM named, no formulary benchmark. For a group your size, industry average is $700-$900/member/year in Rx costs. We routinely find $85K-$140K in annual savings through transparent formulary redesign and PBM re-procurement.
