EXECUTIVE RISK INTELLIGENCE

AI-DRIVEN SIGNALS. HUMAN RISK INTERPRETATION.

Reputational

Market-facing risks detected

- These signals increase visibility and scrutiny, which elevates the executive's exposure—not just reputationally, but personally.

01

Operational

Process inefficiencies and SOP inconsistencies

- These gaps indicate a high likelihood of breakdown during a real-world incident.

02

Organizational

Limited or no clear succession plan

- If a key executive is unavailable, there is no clear decision authority in the first 24-48 hours.

03

Executive Exposure

$3.3M estimated exposure from PBM contract

- This creates downstream employee impact through increased out-of-pocket costs.

04

Compliance & Regulatory

37 compliance gaps identified

- These gaps create legal exposure, but more importantly, they create a scenario where leadership decisions can be challenged publicly or legally.

05

ADJUSTED EXECUTIVE RISK SCORE (HUMAN VALIDATED): 68
